KARTHIK REDDY BUTHUKURI

PYTHON DEVELOPER | AI/ML ENGINEER

Guntur, Andhra Pradesh, India | +91 95155 85638 | karthikreddybuthukuri@gmail.com

LinkedIn | GitHub | Portfolio

PROFESSIONAL SUMMARY

Computer Science honors graduate (CGPA 8.76/10) with hands-on experience in Python, data preprocessing, feature engineering, exploratory data analysis, classification, and model evaluation. Experienced in developing interactive data applications and database-driven systems. Strong foundation in data structures, algorithms, object-oriented programming, and database management.

EDUCATION

Koneru Lakshmaiah Education Foundation (KLEF) | 2022 – 2026

B.Tech in Computer Science and Engineering | CGPA: 8.76/10 | Vaddeswaram, Andhra Pradesh

KEY COURSEWORK

Data Structures & Algorithms, Object-Oriented Programming (OOP), Database Management Systems (DBMS), Operating Systems, Computer Networks, Machine Learning, Data Mining & Analytics.

PROJECTS

Bank Marketing Analytics Dashboard | GitHub | Live Demo

Python | Dash | Plotly | Pandas | NumPy

- Built an interactive dashboard to explore bank-marketing customer demographics, account balances, and term-deposit subscription trends.
- Implemented 3 dynamic filters, 3 KPI cards, and 4 interactive visualizations covering job and age distributions, balance patterns, and subscription share.

Loan Eligibility Checker | GitHub | Live Demo

Python | Streamlit | Financial Calculations | Rule-Based Decision Logic

- Developed a Streamlit application to assess loan eligibility using 5 applicant factors: age, income, expenses, existing financial obligations, and credit score.
- Implemented EMI, disposable-income, and EMI-to-income calculations with rule-based approval decisions and specific rejection reasons; deployed on Streamlit Community Cloud.

Security Incident Response System | GitHub | Live Demo

React | TypeScript | Supabase | PostgreSQL | Row Level Security

- Built a role-based incident management platform for 3 user roles (Employee, Analyst, Admin) and a 5-stage incident lifecycle from reporting through closure.
- Implemented Supabase authentication, role-based access, analyst assignment, investigation comments, event history, and PostgreSQL Row Level Security (RLS).

TECHNICAL SKILLS

Programming: Python, SQL
Machine Learning: Scikit-learn, TensorFlow, Classification, Data Preprocessing, Feature Engineering, Model Evaluation
Data Analysis: Pandas, NumPy, Exploratory Data Analysis (EDA)
Visualization & Apps: Plotly, Dash, Streamlit
Databases & Tools: MySQL, PostgreSQL, Supabase, Git, GitHub, Google Colab, VS Code

LEADERSHIP & COLLABORATION

- **Hackathon Team Collaboration:** Collaborated in high-pressure competitive environments to rapidly design, build, and present functional machine learning prototypes.
- **Technical Communication:** Experienced in documenting repository architectures, crafting user guides, and translating data insights into visual dashboards.

CERTIFICATIONS

- AWS Certified Cloud Practitioner | May 2024
- Salesforce Certified AI Associate | October 2024
- Red Hat Certified Enterprise Application Developer | December 2024
- Aviatrix Certified Engineer - Multicloud Network Associate | November 2025

ACHIEVEMENTS

- IIT Guwahati AIML Hackathon: Ranked in the Top 10 among 4,000+ teams for an optimal email-timing prediction solution.
- IIT Convolve 3.0 National Hackathon: Placed in the Top 6 among 4,500+ teams.
- Academic Recognition: Received the Srinivasa Ramanujan Trophy in Grade 10 for performance in a school mathematics competition.
